

# Rittal – The System.

Faster – better – everywhere.

## ► Blue e+ Air Conditioners

### Assembly made easy

- One mounting cut-out for multiple output categories and mounting configurations
- Mounting aids such as handles on the rear or lifting eyebolts and automatic securing device on the cut-out

### Save up to 75% of energy

- Passive climate control:  
Heat pipe cooling circuit uses cooler ambient air
- Active climate control:  
Compressor cooling circuit with speed-controlled components for demand-based cooling, ensuring a constant temperature

### Versatility

- Inverter technology  
The cooling units can be used for several voltages without installing a transformer  
110V - 230V; 1"; 50/60Hz  
380V - 480V; 3"; 50/60Hz

### User-friendly

- Quick diagnosis, using an app via the Near Field Communication (NFC)
- Remote monitoring via Ethernet and device analysis with RiDiaq via USB interface
- Detailed function analysis and parameter setting capabilities via RiDiaq

### Get information faster

- Resistive touch control panel with permanent status display
- Plain-text system messages for current and preventive maintenance work
- Prioritized error messages with three escalation levels

### Constant Temperature

- Set point with 3 cooling modes
- Tighter hysteresis control
