

A close-up photograph of three Siemens Sirius ACT industrial components. In the upper left, a circular push button with a red faceplate and a silver-colored metal ring. In the center, a smaller circular indicator light with a green faceplate and a silver-colored metal ring. In the lower left, a larger, more complex component, possibly a selector switch or a larger push button, with a black plastic body and a silver-colored metal ring. The background is dark and reflective, showing highlights on the components.

Ingenuity for life

SIRIUS ACT – Core spectrum selection guide

Excerpt from the full range of
SIRIUS ACT Push Buttons and
Indicator Lights

SIRIUS ACT – commanding and signaling

SIRIUS ACT – modern, high-performance push buttons and signaling devices

You can choose from four different design lines to suit your own tastes and requirements: Plastic, plastic with metal front ring, shiny metal or matte metal, flat.

You have complete freedom of choice.

Modular design

You order the actuator, the holder and the LED/contact module as separate items. The freedom to combine products ensures maximum flexibility, as you can stock them individually as required.

Complete units

You quote just one article number to order all three of the elements needed to create a functional unit. This helps you to save time, effort as well as money when ordering products for common applications. Recommended if your requirements are plannable and predictable.

Compact units

Some units are available in compact form, i.e. the electronic circuitry is pre-assembled so that you do not need to order the holder, contact module or LED module as separate items. You can also create your own customized configurations (special lockings, enclosure configurations, inscriptions) using the intuitive SIRIUS ACT configurator siemens.com/sirius-act/configurator.

A key characteristic of these rugged, high-quality products is their ease of assembly, with a lot of advantages for the user:

Focus products

SIRIUS ACT ID key-operated switches – for greater plant security

Reliable identification of personnel for greater plant security.
The SIRIUS ACT ID key-operated switch is designed to ensure that only authorized persons can carry out work on plant and machinery.
A factory-encoded authorization is embedded in every colored key.

Actuator
Plastic black
3SU1000-4WS10-0AA0

Plastic with metal front ring, matte
3SU1030-4WS10-0AA0

Essential accessories

Holder
Plastic
3SU1500-0AA10-0AA0
or
Metal
3SU1550-0AA10-0AA0

Essential accessories

Standard module
(only keys green to blue)
3SU1400-1GC10-1AA0

IO-Link module
(colored and white keys)
3SU1400-1GD10-1AA0

Essential accessories, at least 1 key

ID keys

● 1st authorization level	3SU1900-0FV40-0AA0
● 2nd authorization level	3SU1900-0FW30-0AA0
● 3rd authorization level	3SU1900-0FX20-0AA0
● 4th authorization level	3SU1900-0FY50-0AA0
○ Individual coding	3SU1900-0FU60-0AA0

Potentiometers (compact unit) – installation has never been simpler

Potentiometers – plastic

1 k ohm	3SU1200-2PQ10-1AA0
4.7 k ohm	3SU1200-2PR10-1AA0
10 k ohm	3SU1200-2PS10-1AA0

Potentiometers – metal

1 k ohm	3SU1250-2PQ10-1AA0
4.7 k ohm	3SU1250-2PR10-1AA0
10 k ohm	3SU1250-2PS10-1AA0

Accessories: labeling plates

With 0–9 scale	3SU1900-0BG16-0RT0
With "Power up" symbol	3SU1900-0BG16-0RU0
Blank, without inscription, black label	3SU1900-0BG16-0AA0

Sensor switches (compact unit)

Sensor switches

The switch is actuated by simple contact with the hand (i.e. without application of pressure).
Operational voltage 24 V DC, black plastic, 1NO, 0NC, momentary contact, with holder
3SU1200-1SK10-2SA0

Connector for sensor switch
(essential accessory)
3SU1900-0KL10-0AA0

Protection for sensor switch
(optional accessory)
3SU1900-0EC10-0AA0

Selector switches

4x selector switch, with rotary knob, 4 switch positions, white, latching
Plastic
3SU1000-2AS60-0AA0
Plastic with metal front ring
3SU1030-2AS60-0AA0
Metal shiny
3SU1050-2AS60-0AA0

4x holder
(essential accessory)
Plastic holder for plastic and plastic with metal front ring
3SU1500-0BA10-0AA0
Metal holder for plastic, plastic with metal front ring and shiny metal
3SU1550-0BA10-0AA0

The information provided in this brochure contains merely general descriptions or characteristics of performance which in case of actual use do not always apply as described or which may change as a result of further development of the products. An obligation to provide the respective characteristics shall only exist if expressly agreed in the terms of contract.

All product designations may be trademarks or product names of Siemens AG or supplier companies whose use by third parties for their own purposes could violate the rights of the owners.

Siemens provides automation and drive products with industrial security functions that support the secure operation of plants or machines. They are an important component in a holistic industrial security concept. With this in mind, our products undergo continuous development. Consequently, we recommend that you regularly inform yourself of any updates to our products and use only the current versions. You can find further information at:

<http://support.automation.siemens.com>

You can also register at this website to receive a product-specific newsletter.

To ensure the secure operation of a plant or machine, it is also necessary to take suitable preventive action (e.g. cell protection concept) and to integrate the automation and drive components into a state-of-the-art holistic industrial security concept for the entire plant or machine. Third-party products that may be in use should also be considered. You can find further information at:
